Improving Occupational Health

FormFox Ordering

Simplify your collection process and eliminate errors

Mercer Health Occupational Health has teamed up with FormFox to help you manage your Drug Screen requests through a free electronic ordering site.

formfox® Smarter Workflows

This is the fastest, easiest way for our employers to authorize drug testing. It is an entirely online process, and you simply hand your employee a form or email it to them. A barcode is included with the form for the clinic to scan.

FormFox also allows you to monitor the status of the ordered tests, from pending to complete. Multiple lab collections can be completed through FormFox.

FormFox works with the following labs:

CRL | DRUGSCAN Great Chemistry | LabCorp | Psychemedics | Quest Diagnostics

To get started with FormFox, contact Jessica Brown at 419-586-1220.

Mercer Health
